[Lesson Plan Topic]

Date :	**[DATE OF LESSON]**
Grade & Subject :	**[GRADE & SUBJECT]**

I. Introduction:

Today's lesson will focus on introducing preschoolers to shapes and colors through interactive activities and games. This lesson aims to engage young learners in a fun and hands-on exploration of fundamental concepts in early childhood education. It is designed to support cognitive development, language skills, and fine motor abilities.

II. Objectives:

1. To identify and name basic shapes such as circles, squares, triangles, and rectangles
2. To recognize primary colors including red, blue, and yellow.
3. To practice fine motor skills through hands-on activities involving cutting, gluing, and molding.
4. To foster creativity and self-expression through art and play.
5. To encourage social interaction and cooperative play among preschoolers

III. Materials Needed:

- Colorful construction paper in various colors
- Child-safe scissors
- Non-toxic glue sticks
- Crayons or markers

- Shape flashcards or picture cards
- Sorting bowls or containers
- Playdough in various colors
- Large paper or poster board for collages
- **Storybook:** "The Shape of Things" by Dayle Ann Dodds
- Child-safe playdough tools (rolling pins, cookie cutters)
- Healthy snacks in primary colors (e.g., strawberries, blueberries, bananas)
- Music for songs (optional)

IV. Circle Time:

- **Welcome Song:** "Hello, Friends!" (Sing to the tune of "Frère Jacques")
    - Lyrics: "Hello, friends! Hello, friends! How are you? How are you? Let's all clap together, let's all clap together, now it's time to play, now it's time to play!"

- Review shapes and colors using flashcards or picture cards. Show each card and ask the children to name the shape and color.
    - **Shapes:** Circle, Square, Triangle, Rectangle
    - **Colors:** Red, Blue, Yellow

- Introduce the concept of sorting by shape and color, using real objects or pictures to demonstrate.
- Encourage children to participate in discussions and share their observations.

V. Art Activity:

- **Activity Title:** Shape Collage

  - Provide children with colorful construction paper and safe scissors. Pre-cut some shapes for children who may need assistance.
  - Demonstrate how to cut out shapes from the paper or provide pre-cut shapes.
  - Encourage children to arrange and glue the shapes onto a larger piece of paper to create a collage.
  - Ask questions like, "What shape is this?" and "What color is that?" to reinforce learning.
  - Display the finished collages in the classroom to celebrate the children's creativity.

VI. Snack Time:

- Provide snacks in primary colors, such as sliced strawberries (red), blueberries (blue), and banana slices (yellow).
- Encourage children to identify the colors of their snacks before eating, fostering color recognition and vocabulary development.
- Promote healthy eating habits by discussing the nutritional value of the snacks.

VII. Outdoor Play:

- **Activity Title:** Shape Hunt

  - Hide colorful shape cutouts around the playground or outdoor area.
  - Encourage children to explore and find the hidden shapes, naming each shape as they discover them.
  - Organize a group activity where children sort the shapes they found by color and shape.
  - Promote physical activity and gross motor skills while reinforcing shape recognition.

VIII. Storytime:

- Read a story about shapes and colors, such as "The Shape of Things" by Dayle Ann Dodds.
- Engage children in interactive storytelling by encouraging them to identify shapes and colors in the illustrations
- Facilitate discussions about the importance of shapes and colors in everyday life, connectingthe story to real-world experiences
- Ask open-ended questions like, "Can you find a shape in this picture?" and "What color is this object?"

IX. Fine Motor Skills Activity:

- **Activity Title:** Playdough Creations

  - Provide playdough in various colors and child-safe tools such as rolling pins and cookie cutters.
  - Encourage children to roll, pinch, and mold the playdough to create shapes of their choice.
  - Support children in developing fine motor skills and creativity while reinforcing shape and color concepts.
  - Create a "playdough gallery" where children can display their creations and explain their designs to the class.

X. Closing Circle:

- Review the shapes and colors learned throughout the day, reinforcing key vocabulary.
- Reflect on the day's activities by asking children what their favorite part of the day was.
- Encourage children to share their thoughts and feelings about what they learned.
- Sing a goodbye song together, such as "Goodbye, See You Soon!" (Sing to the tune of "London Bridge Is Falling Down")

  - **Lyrics:** "Goodbye, friends, see you soon, see you soon, see you soon. Goodbye, friends, see you soon, I'll see you next time!"
